CAREER OBJECTIVE

Final-year B.Tech Computer Science and Engineering student with strong programming skills in Python and JavaScript and a foundation in Data Structures & Algorithms. Skilled in developing web applications using React.js, REST APIs, and PostgreSQL, with knowledge of Git and GitHub. Interested in building efficient web applications and solving real-world software engineering problems.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Web Technologies: HTML, CSS, React.js

Database: PostgreSQL

Backend: Node.js, FastAPI, Flask, REST APIs

Deployment & Cloud: Render, AWS Basics, Environment Variables, CI/CD Basics

Tools: Git, GitHub, VS Code

Soft Skills: Communication, Teamwork

PROJECTS

AI-POWERED INTRUSION DETECTION SYSTEM

Tech Stack - Python, FastAPI, Scapy, Machine Learning, Scikit-learn

- Developed an AI-based intrusion detection system to monitor network traffic and identify potential cyberattacks in real time.
- Applied Machine Learning techniques to classify network traffic and identify different types of network attacks.
- Used Python and Scapy for real-time packet capture and network traffic analysis.
- Implemented data preprocessing and feature extraction to prepare network traffic data for ML-based classification.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Sree Datta Institute of Engineering and Science, Hyderabad

CGPA: 8.07/10

Intermediate (12th Grade)

Narayana Junior College, Hyderabad

Year of Completion: 2023, Percentage: 89%

Secondary School Certificate (SSC / 10th Grade)

Naagarjuna High School, Hyderabad

Year of Completion: 2021, CGPA: 10/10

ACHIEVEMENTS & ACTIVITIES

- Solved 150+ Data Structures and Algorithms problems on LeetCode using Python, strengthening problem-solving and logical thinking skills.
